Portfolio: curriculo-victor-emanuel-maksud-carneiro.onrender.com

Work rights: Student visa (subclass 500), valid to [MM/YYYY] — available up to 48 hours per fortnight during study periods and full-time during scheduled university breaks. Available from [MONTH 2027].

CAREER SUMMARY

Final-year Bachelor of Information Systems student (UniBH, Brazil; expected completion December 2026) and co-founder of DIMAK Soluções, a custom-software studio. Builds and ships web systems end to end, including a reusable WhatsApp chatbot platform and a barbershop booking system in production. Combines full-stack development with practical AI — prompt engineering, LLM-assisted development (Claude) and n8n automation — and has mentored people on using AI at work. Seeking junior software developer, web developer, IT support or AI/automation roles on the Gold Coast.

KEY SKILLS

- **Programming:** Java, JavaScript, HTML, CSS (proficient); Python, Node.js, C# (working knowledge)
- **AI & automation:** prompt engineering, LLM-assisted development (Claude), n8n workflows, WhatsApp chatbot design
- **Web & integration:** full-stack web apps, WhatsApp Cloud API, APIs and webhooks, deployment on Render
- **Design:** UX/UI, Figma, responsive web design, visual communication
- **Tools & foundations:** Git/GitHub, VS Code, IntelliJ IDEA, Wireshark; networking (Cisco), IT governance, data science basics

PROFESSIONAL EXPERIENCE

Co-Founder & Software Developer

[Month YYYY] – Present

DIMAK Soluções · Belo Horizonte, Brazil

Custom-software studio building tailored systems, chatbots and 3D websites for businesses.

- Built DIMAK Bot, a reusable WhatsApp chatbot (WhatsApp Cloud API) that connects to any client system, with menu-driven flows, human handover from the client's own dashboard and a dedicated number per business.
- Designed the admin panel that lists every active chatbot and limits each business owner to their own bot.
- Developed a barbershop booking platform now in production (barber dashboard and customer area); WhatsApp bookings recognise customers by phone number and sync with the dashboard.
- Added email alerts to owners and staff when a customer asks for a person, and opened the WhatsApp inbox to the whole team.
- Deployed and maintain always-on services on Render under the studio's domain (dimaksolucoes.com.br), using Git and GitHub.
- Produce the studio's Instagram content (@dimaksolucoes), presenting custom software, chatbots and 3D websites.

PROFESSIONAL EXPERIENCE (CONTINUED)

AI Mentor
[YYYY] – Present

[Organisation / Independent] · [City / Online]

- Delivered AI mentoring sessions on prompt writing, AI-assisted workflows and automation for [audience — e.g. students, professionals, business owners].
- [Add: number of sessions or mentees, and one concrete outcome.]

SELECTED PROJECTS

DIMAK Bot — WhatsApp chatbot platform · In production · demo on request
Reusable chatbot that plugs into any business system and is customised per client; one demo number offers a menu of segments (barbershop, accounting, sales) and stores every lead for follow-up.

Barbershop Booking System — full-stack web app · app.dimaksolucoes.com.br
Booking platform with a barber dashboard and customer area, connected to DIMAK Bot so customers can book through WhatsApp as well as the web.

Parks & Squares Finder — full-stack search app · fitness-local-project.onrender.com
Helps people find parks and recreational spaces across Brazil, built with attention to security and performance.

Autonomous Vehicle Prototype — university project · NVIDIA Jetson Nano
Built a miniature self-driving vehicle prototype on NVIDIA Jetson Nano as part of the Information Systems degree.

EDUCATION

Bachelor of Information Systems
2023 – Dec 2026

Bacharelado em Sistemas de Informação

Centro Universitário de Belo Horizonte (UniBH), Belo Horizonte, Brazil · **Expected completion: December 2026**

3,140-hour degree. Coursework: software modelling, enterprise architecture, IT governance, IT projects and processes, computer systems and security, computing environments and connectivity.

Study exchange — [Institution], Gold Coast, QLD
[2027]
